SALE OFFER IS NOT FORMALLY GIVEN TO CITY

Commission Does Not Get Letter Containing Arbitration Suggestion

CASE PROGRESS REPORTS

One Hearing Before Supreme Court Nov. 4—Removals to Federal Court

Failure of the city to receive formally from the Bismarck Water Supply company its advertised offer of a plan of sale to the city of Bismarck prevented any discussion of the offer by the city commission last night. Inquiry by Mayor Lucas elicited information from the city auditor and commissioners that the offer had not been received.

In a brief business session of the city commission, in furtherance of its program of legislation in regard to the water company passed the following resolution:

"Be it resolved by the board of city commissioners that Lawrence [illegible] Murphy of Fargo be appointed special counsel to act with or as counsel for the city in the case against the Bismarck Water Supply company."

This firm appeared in the supreme court as attorneys in the taxpayers suit which seeks a determination of the rate questions in that court. The supreme court granted a restraining order halting increase in rates and will hold a hearing on Nov. 4.

The city attorney reported on the status of other cases pending in the name of the city. The water company, incorporated under the laws of West Virginia, asks that the cases be heard in the United States district court. The next term of the court in Bismarck is in March. There are three cases pending: the appeal from the decision of the board of railroad commissioners which is in the district court, the condemnation proceeding and the franchise cancellation.

The commissioners adopted a resolution deciding to assume ten per cent of the cost of paving in paving district No 1, 2 and 3 as incurred under the contract of July 14 191[illegible]. This amount is intended to take care of the street intersections and property owned by the city abutting the paving.

One bid was submitted for furnishing 500 tons of coal more or less for use in city buildings and for the city poor. The bid of the Washburn Lignite Coal company of $6.25 per ton was accepted.

The city health officer reported on an inspection of the premises of Anton Chris on Fourteenth street which he said was more dangerous as a fire hazard than any other reason because of lumber piled in his yard. Complaints against the dairy of Herman Ode on Fifteenth street. The matters were referred to the city engineer.

CAPTURE 1,500 QUARTS LIQUOR AND 4 'RUNNERS'

Sheriff Stefferud Makes Rich Haul When High-Powered Cars Are Halted

COMING THRU BISMARCK?

Airplanes Are Used to Transport Whiskey, Says Reports from Border

Minneapolis, Oct. 26.—Dry victories yesterday in Canada making practically bone dry the provinces of Saskatchewan and Manitoba will be a great aid in enforcing the prohibition amendment in North Dakota and Minnesota, Paul Keller, supervising federal prohibition director said today.

Ole Stefferud, sheriff of McLean county is in possession of 1,200 to 1,500 quarts of Canadian whiskey today.

The whiskey was captured from four persons bringing it from Minot or the Canadian border, the sheriff said. The four men arrested were:

T. J. Kavanagh, Moorehead, Minn.
Chas Shoemaker, Moorehead, Minn.
Chas Norman, Fargo, N. D.
Arthur Margerum, Mooreheau, Minn.

The men were traveling in high powered cars according to word from Washburn. Two of them were whiskey sixes capable of making better than 65 miles an hour and were driven at terrific speed in the border running. The first capture was made during the day and the last two were captured late in the evening.

The men it is said were bound for Fargo or Minneapolis by the way of Bismarck. Oftentimes whiskey runners come from the Canadian border, drive at night and go to Minnesota points by a circuitous route often dropping down into South Dakota.

Norman gave his address to the sheriff as Fargo, N. D. but he is said to be from Minot.

All of the men will be arrested on U. S. warrants, it is said.

PLANS USED

Sherwood, N. D., Oct. 26.—During the past two weeks numerous airplanes have passed over this town and vicinity and landed in nearby Canadian towns where it is understood they took on cargoes of as high as 20 cases of liquor. Some of these planes came from as far as Wyoming and Colorado. The whiskey planes it has been learned alight close to the liquor warehouse or a few miles out of town. If the planes do not land near the warehouse the whiskey is hauled to [illegible] by auto.

A new liquor house has just been opened at Carnsboro and a consignment of several cars of wet goods reached it this week. Carnsboro is just across the line in Saskatchewan.

In discussing the liquor running situation the editor of the Sherwood Tribune comments in this week's issue as follows:

"Autos by the dozen are still bringing the joy water across notwithstanding a number of cars are seized by the local customs officials every week. An occasional capture is made by state and federal officials but the co-operation given by the enforcement department is so slow moving that little encouragement is offered."

ARGUE LEGAL QUESTION

Minot, N. D., Oct. 26.—The question of whether violators of the liquor laws who are prosecuted under state laws can be prosecuted by federal authorities was argued in the federal court before Judge J. W. Woodrough. Attorneys acting in behalf of Martin Holt, William Kimball and Irvin Young arrested in Renville county for transporting whiskey who had entered pleas of guilty before County Judge Perry Crewe and were sentenced to pay a fine of $250 each and serve 120 days in jail declared that they could not also be tried for these violations on federal charges. Judge Woodrough took the case under advisement.

LUCKIEST HUNTER

International Falls, Minn., Oct. 26.—Barney Collins is considered the luckiest partridge hunter in this section because instead of having to kill the birds they thrust themselves on him. He was driving out of town recently in a sedan automobile he says when two fat ones flew right into the car and were captured.

BANK OF NORTH DAKOTA BACKED "SLUSH FUND" SAYS EDITOR

Offers What He Declares is Conclusive Proof That People's Bank is Used to Guarantee Notes Collected by Townley from Farmers for Campaign Use While Farm Loans Wait.

Is the Bank of North Dakota used for political purposes in the present campaign while the making of real estate loans is virtually suspended?

F. W. Cathro, director general, says it is not.

The Valley City Times Record says that it is and offers what it terms unassailable proof to back its charges.

The record is given herewith. In it the Valley City Times Record declares that five Nonpartisan leaders in Barnes county have secured on their notes $2,500 a piece to be used by Mr. Townley for political purposes.

The Valley City Times Record made a brief reference to the matter in an editorial. The Tribune reprinted the editorial in its editorial review crediting the Valley City paper. Mr. Cathro took The Tribune to task for this action. He said the matter was false and that The Tribune could have discovered the truth by calling up the Bank of North Dakota over the telephone. Here is the Valley City Times Record charges and proof:

Mr. Cathro says that no money has been loaned to Nonpartisans of Barnes county or any other county for political purposes from the Bank of North Dakota. Mr. Cathro says we are a liar so we are going to prove that instead of the editor being the liar it is the manager of the Bank of North Dakota. We had not intended giving the names of these five men in Barnes county who got money on their notes for political purposes. We are forced to do so by Mr. Cathro's accusation that we lied. They are:

C. H. NOLTIMIER
JOHN STAUB
GEORGE C. RASMUSSEN
JOHN McINTYRE
WM. OLSON

These notes were given to the Security National bank of this city and at the time Mr. Townley came to Barnes county to get money for the Nonpartisan campaign right after the primary election. Many thousands of dollars were taken in and subscribed all over this county at that time and these five notes were part of the money contributed. The banks of Valley City, some of them were asked to take these notes but refused and finally the Security National bank of this city after being guaranteed that the $12,500 would be sent from the Bank of North Dakota to be held as security until these notes were paid took the notes and they were in this bank at the time we wrote the editorial referred to and probably are now. When the banks would not take the notes the leaguers got in touch with the Bank of North Dakota to get the money and by mistake the wrong phone number was secured at Valley City and one of our prominent lady citizens got to the phone and heard considerable of the conversation from the state bank and could have gotten the whole works but she told them at Bismarck that they had the wrong number. We can give the lady's name also if necessary. However the money was sent to the Security National bank of this city to guarantee the notes and it was sent at the request of the league leaders and Mr. Cathro knows it only too well. He is deliberately and wilfully trying to deceive the people of this state in these matters.

Done Other Places

What has been done in Barnes county has been done in other counties of the state no doubt although we cannot say as to that but we do know that it was done in Barnes county. Shoot it to the Other Banks Cathro all you want to but you can not fool the people. You may call the editor of this paper a liar but you cannot stop us from telling the truth neither can your arch conspirator Mr. Townley drive us out of business. Why has the Bank of North Dakota loaned millions of dollars of money outside of the state at 2 per cent when you can get 4 per cent for it in the state and more from good farmers if you want to loan it to them and they are the ones who should get it. Millions of dollars have been lost to the farmers of the state by this reckless placing of public funds at a lower rate of interest than could be secured at home. Why has Cathro been a tool to this sort of business. Why have not the farmers of this state been allowed to borrow money at a reasonable rate of interest on their own good paper instead of peanut politicians who have been boosting this socialistic propaganda that is going on in North Dakota? Why is it that the Bank of North Dakota or rather the officials are so afraid to let the people of the state know its condition. Why is it that every effort on the part of the state auditor to examine this bank is resisted by those in charge? Are there a lot more notes for $2,500 each held as political collateral backed by the money of the farmers of this state while the farmers themselves can get no money to tide them over the rough spots? Come on Cathro tell the people these things. You have asked for information, call ed the editor a liar, now we are backing up our statements and you take not back yours because we have the goods on you.

Challenges Denial

You cannot deny the fact that a solicitation from your political bosses of whom you [illegible] their most a[illegible] vient tool that you sent the $12,500 to the Security National bank of this city [illegible] of these five notes [illegible] that either [illegible] those under you or the orders of some one higher up [illegible] [illegible]

"FINAL APPEAL" BY HARDING IS DEMOCRAT BLOW

Charges That Administration Has Shown Incompetency and Talks on League

WOULD HAVE ASSOCIATION

Washington, Oct. 26.—Senator Warren G. Harding in a final pre-election statement to the American people made public here today declared the Republican party goes to the people assured that they will recognize its superiority as an instrumentality to administration and that in the election now impending they will give it the certificate of their confidence and trust.

The Republican party nominee criticized the Democratic administration of governmental affairs declaring the nation is determined to be done with democracy under the mere guise of Democratic forms. The Republican, he asserted, has proposed in its platform and developed in the utterances of its leaders a program which contemplates equal opportunity for all and recognizes the voices against exploitation and profiteering.

As to the league of nations Senator Harding summarized his party's position as follows:

"The Republican party proposes to form an association of nations as will most effectively further the aspirations for world wide and permanent peace without sacrificing any part of the independence of the American nation. It believes America can and must bear its full part and responsibilities of the world but it always believes that America alone must decide what that part shall be."

PLACES TO GO

Marion, O., Oct. 26.—As election day draws near volunteer suggestion for a vacation trip for Senator Harding are coming to his headquarters here in increasing numbers from his friends and admirers. Popular winter resorts have asked to be his hosts and several elaborate private homes have been placed at his disposal for whatever rest he may decide to take after the end of the campaign.

Today was virtually his last breathing spell before election for he starts tomorrow on a campaign trip through Ohio that will last the remainder of the week.

London Papers Criticise Government's Policy Toward Hunger Striker

FEAR IRELAND STRONGER

One Paper Declares That British Policy Stiffens Resistance

London, Oct. 26.—Announcement of plans for the removal to Ireland of the body of the late Terence MacSwiney, Lord Mayor of Cork who died yesterday morning in Brixton prison, this city, was expected today.

Articles on the death of MacSwiney occupied much space in the morning papers regardless of their political policy.

The Times which is hostile to the government's Irish policy severely attacks the government especially in the matter of reprisals.

Referring specifically to MacSwiney the newspaper expresses the fear that the effects of his death will not be confined to the British Isles.

"Misguided Patriot"

Asserting the Lord Mayor was a misguided but sincere patriot dying for his convictions, the Morning Post says:

"We cannot perceive what relation can exist between suicide and martyrdom. We cannot forget the many loyal servants of their country who have been shot down in the mere performance of their duty in Ireland and for whose memory there is no popular appeal for fallacious sentimentality."

The Daily News says the government imprisoned MacSwiney as a criminal and converted him into a martyr and that the responsibility for his death rests on the government.

Making a Nation

Every day, the newspaper declares, Ireland is being welded more surely and more irresistibly by the premier and his armies into a nation that will not be conquered. Irish nationalism will be given a stimulus almost incalculably by the Lord Mayor's death.

The murder of MacSwiney by the government, says the Herald, organ of labor, was accomplished after slow torture for 74 days.

PROPOSITION TO END STRIKE GIVEN MINERS

Cost of Coal to Consumers is One Basis of British Proposal to Workers

London, Oct. 26.—Formal negotiations between the government and the executive officers of the miners federation in an effort to settle the coal strike were reopened this morning indicating that the informal discussions which have been in progress since Sunday had proven satisfactory to some extent at least.

It was reported from South Wales today that the miners officials there had before them yesterday the government's new formula on the wage question which is said to be based upon coal values. The miners are to get two shillings a day increase but the future selling price of coal will depend on production, that is, if production falls below a certain level the price of coal will be increased to the householder, otherwise present prices will be maintained.

Under this plan the miners while receiving more wages would co-operate with the owners in preventing increased prices.

Much significance was attached to today's negotiations especially in view of Premier Lloyd George's statement in the house of commons that he was loath to call such a conference until a basis had been reached which looked as if it might lead to final negotiations.

The belief expressed today that such a basis had been reached.

COX SEES BIG MOVEMENT FOR HIS ELECTION

Tells West Virginia Audience That Judge Taft was a Prophet

Kenova, W. Va., Oct. 26.—Governor Cox of Ohio closed his West Virginia campaign today with another appeal for the league of nations and a statement that the churches, labor and women were together in the movement which he said was sweeping the country.

He called attention to the statements a year ago by former President Taft.

"I desire to pay Judge Taft a tribute," said the Governor. "He possesses a gift which I did not think was his. He has the gift of prophecy. Speaking just about a year ago in West Virginia he said that labor would endorse the league of nations because of its provisions; that the churches would endorse it because it is right, and then if the women were given the vote they would all be for it because of their abhorrence to war, and in the last week it is perfectly apparent that Judge Taft correctly visualized the future."

CANDIDATES IN RAMSEY LEAVE AFTER PRIMARY

Devils Lake, Oct 25—Since the primaries a number of men who were nominated for various offices in this county have either withdrawn their names from the ballot or have moved out of the county.

For instance, J. W. Cavers, formerly of Churchs Ferry, was nominated, together with George Elmslie for county treasurer. Since the primaries, Mr. Cavers has moved from the county and he cannot qualify for the office, so that the race is confined, in reality, to Mr Elmslie alone.

William J. Gardner was nominated for county judge, but he also has left the state and George Griffin, the incumbent, is the only person qualifying for the office.

Glen Batten had been nominated for county auditor, but he has moved to Williston, eliminating him from the race. Joseph A. Kramer, the present auditor, is candidate for re-election and has no opposition.

The only other change since the primaries was in the case of District judge. Siver Serumgard made a fight for the office at the primaries, but since that time has withdrawn from the race. The present judges, Burr, Buttz and Kneeshaw, are candidates for re-election.

MUST EVOLVE NEW PLANS TO AID FARMERS

Change in Banker's Viewpoint Toward Rural Credits Most Necessary Says Speaker

MUST MODIFY POLICIES

Solution of Problem May Be Extensive Plan of Agricultural Cooperation

Washington, Oct. 25.—Financing the farmers of the country in the marketing of their crops demands new methods of extending credit so as to prevent unjust price depreciation, M. Robinson a banker of Los Angeles, who was chairman of the United States Bituminous Coal Commission, declared today in addressing the convention of the American Bankers' Association. A change in the bankers' point of view and the establishment by producers of cooperative marketing agencies were suggested as means for improving present conditions.

Producers Dissatisfied.

"There are many evidences," declared Mr. Robinson, "of growing dissatisfaction on the part of the producers of many commodities, who claim that they are being discriminated against by bankers or those in control of credit facilities, and there is constant agitation by such producers for an extension of the principle of cooperative marketing to remedy or at least relieve the situation.

"Bankers must meet this problem. There must be a modification of the old attitude. Whether this should be done through banking machinery or through proper cooperative marketing remains to be decided. However, some method must be devised for reducing the pressure on the producer which forces him to dispose of his crop, either at the moment the harvest is completed, or while its movement is under way, as this has been too often used as a means for price depreciation. Methods also must be discovered for lowering the cost of financing him."

The tendency of the cooperative organizations of producers is toward use of their great power to the disadvantage of other producers, Mr. Robinson said.

Regarding current practices in the movement of grain and cotton, Mr. Robinson said:

"For many years it has been accepted as a part of the obligation of the banks of the country to finance the movement and storage of grain, but no commodity, considering its importance, has shared as little in the financial resources of the country as has cotton—this principally due to the lack of adequate warehouse system in the production area and lack of an open market for paper issued against the product.

"Insufficient effort has been made to place cotton and its storage on a basis of credit in a form that would be readily marketable on its own merit.

Must Extend Fair Credit.

"The difficulties of financing even legitimate holdings of such commodities as grain and cotton, for the purpose of conducting a movement in an active and orderly way, are becoming increasingly greater and more complex and bankers must use their best thought to see that each producing industry receives a fair share of the available credit and bears its fair share of the burden and pressure when a credit shortage exists.

"In the present emergency, requiring the rationing of credits, a measure of financial support proportionate to cotton's contribution to the credit resources of the country, and with proper consideration for the delays in moving exportable surplus because of the low ebb of European credit, should be given."

FATHER SENT TO PRISON FOR HEINOUS CRIME

Dickinson, N. D., Oct. 25.—Joseph Christman, a farmer living near Mineral Springs, in Slope county, was taken before Judge Lembke in the district court at Amidon last week where he pleaded guilty to a charge of incest and was sentenced to five years in the state penitentiary at Bismarck. The complaining witness was a daughter about 17 years of age who gave birth to a child several months ago.

Christman has nine children, ranging from two to 17 years of age His wife died two years ago shortly after the birth of the youngest child.

The girl stolidly refused to tell the secret until last week when Juvenile Officer Walter Sterland, who has been quietly investigating the case for some time wrung the confession from her. The father made no attempt to deny the charge.

CREAMERY DOWN FOR WINTER

Washburn, Oct. 25.—The directors of the Washburn Creamery Co closed the creamery last week for the winter months because they were unable to secure a man to run the plant. Mr Clapper, who took charge after Fred Kuhn left for Bismarck where he accepted a similar position at a big increase in salary. It is the intention of the local company to open again in the spring and again take up the manufacturing of butter and ice cream The company has had a fine business the past summer, but the officers were afraid that the amount of cream handled this winter would not pay expenses.

HUGE TAX INCREASE BY LEAGUE SET OUT IN AN OFFICIAL CHART

A graphic chart showing the remarkable increase in taxation in North Dakota under the Nonpartisan league regime is shown in a table in the report of the state auditor, submitted biennially as required by law.

It refutes the statements of league leaders that the state tax has not increased—that only the local taxes have gone up. The statement shows that the state tax per capita has MORE THAN DOUBLED under the Nonpartisan league regime. Here are the figures:

Year	Total Tax	State Tax	Total valuation all property.	Tax rate all purposes.	State tax capita.
1915	$16,192,169	$1,638,683	$379,870,788	4.62	2.57
1916	16,545,929	1,403,180	350,973,333	4.71	2.13
1917	18,969,327	1,673,594	389,019,009	4.88	2.48
1918	21,379,497	1,766,046	403,422,258	5.30	2.59
1919	33,289,457	3,742,816	1,533,746,929	2.18	5.46

The figures show the amount of tax is more than doubled since 1915, that the amount of state tax has more than doubled, that the per capita tax has more than doubled. League leaders point to a lower tax rate, but in accomplishing this valuations are more than tripled.

The per capita tax of $5.46 was based on an estimated population of 685,056. The 1920 census population is 645,730, so that the per capita tax is actually even greater on the basis of actual population.

The amount of taxes in 1920 is increased by new indirect taxation measures. And each dollar raised by indirect taxation is paid by the ultimate consumer.

The Townley newspapers have printed what purports to be a comparison of North Dakota tax figures with other states, but neglects to state the figures were taken for 1917, before the high league taxes came on.

WHAT'S THE MATTER WITH FARMING

By FLORENCE BORNER

"What's the matter with farming?" everyone is asking nowadays. My answer to this is: "Everything." In other words, the farmer refuses to be the goat any longer. He demands representation at the world's council table along with his business and labor associates. He feels that he has been discriminated against long enough, and he has given solemn warning that if we wish to continue being well fed we must pay the producer a living wage.

Remember, this is no "tempest in a teapot" which will soon blow over, but an outraged class of citizens' demand for justice, and, if we do not heed it we are going to suffer as a consequence.

And who can blame the farmer? While he has been compelled to sell his products at a loss, he sees the ultimate consumer paying three times as much as ever before for the necessities of life.

It requires three cow hides to purchase one pair of shoes, ten to fifteen sheep to purchase a suit of clothes, and a whole steer, horns, hoof and hide to buy back a quarter of dressed beef. Is the work of skinning, dressing and cutting up this same steer equivalent to the work and expense incurred in raising him to a marketable age? In other words, who should benefit by his sale the grower or the buyer? No one wants to see farm products handled at a loss, but neither do we want to see the producer get skinned along with every thing he sells.

Is it any wondr there is such great unrest among the farming population, and the farmer is beginning to wonder where he is coming out at if this keeps up?. During the war the farmer felt that it was his patriotic duty to see that our soldier boys were well fed—even tho he (the farmer) raised food at a sacrifice. But now he feels that he is entitled to a fair price for what he produces, along with other lines of business.

And therein lies a great deal of the present cause for unrest. The men who have been profiteering at the expense of the common people are reluctant to give up any of their profit even in time of peace. They wish to continue this exorbitant gain, even tho they do so at the expense of every man, woman and child in Uncle Sam's domain. To them, profit is everything.

Right here is where the government must take a firm, steady hand, in order to bring order out of chaos. Laws should be made to curb the profiteer. One or two of them placed in prison would be a wholesome lesson to the rest, and serve notice on them that Uncle Sam is on the job and means business. The sooner we can return to a normal basis the better it will be for us.

War prices are largely due to the inflation of currency. When you can get one hundred cents worth for every dollar you spend, prices must decend. But when our dollar is only worth forty-one cents as it is at present the whole financial world is upset and the nation suffers accordingly.

The farmer has no objection to a gradual decrease in prices of what he produces, provided at the same time the things he must purchase are also reduced—but he strongly objects to being made the only one compelled to sacrifice. He refuses to come down off the ladder entirely while others are climbing still higher and higher. And who can blame for this determination?

ELEVATOR AT LINTON BURNS

Linton, Oct. 25.—The Farmers' elevator, located here, burned to the ground last week Fire was discovered breaking through the top of the elevator.

Nothing in the elevator was saved Not much grain was in its bins. Several cars loaded with grain, standing near the elevator were moved to safety, although fire caught the roof of one car.

The structure collapsed thirty minutes after the fire was discovered, and the city with inadequate fire-equipment could offer no help

English Freights Drop Fifty Per Cent

London, Oct. 25.—There has been a big drop in freights during the past few months, a shipping authority has informed the Liverpool Post. Taking the market all round he said freights have fallen by about 50 per cent since the beginning of the year. This situation is attributed to the increase in the world's shipping tonnage and the general scarcity of goods for export. Ships are leaving London and other United Kingdom ports with part cargoes

"Before the war the United Kingdom was the carrier for half the goods of the world" said the shipping man. "Our share is now about one-third. The United States which before the war owned a nominal amount of tonnage is now our chief competitor and swallows much freight that would otherwise be carried in British holds Operating costs are tremendously high the coal item being one of the biggest factors.

A Beautiful, Long-lived Roof— Certain-teed Shingles

Certain-teed Asphalt Shingles, in subdued reds or greens, add an attractive touch to the appearance of any home. Their surface does not wear off, wash off or change color and they do not crack or break.

In addition to their beauty, they provide weather protection and are, at the same time, fire-retarding and spark-proof.

Their cost is low compared with other equally high grade types of roofing and they are guaranteed for ten years.

In addition to shingles, Certain-teed Roofing comes in rolls, mineral-surfaced red or green —much like the shingles in appearance—and also in the smooth, surface staple gray kind.

Like all products bearing the Certain-teed label, Certain-teed Roofings are the highest quality.

See a Certain-teed dealer the next time you need roofing. He can help you select the best kind of roofing for your purposes and sell you what you need at a real saving in cost.

CANADA'S WHEAT DUMPED IN U. S. IN GREAT LOTS

Statistics Show That Over 8,000,000 Bushels Have Been Shipped to Us

HAS A HUGE SURPLUS

Of 13,416,000 bushels of wheat shipped out of Fort William and Port Arthur, Canada, 8,265,000 bushels were shipped into the United States, according to the statistical service of W. Sanford Evans & Co. of Winnipeg, Canada.

The record covers the wheat movement from Sept. 1 to Oct. 8, 1920, and discloses that 61.6 percent of all of the Canadian wheat shipments out of the Canadian Great Lake ports were made to American ports.

Of this basis, if the percentage of Canadian wheat shipments continues there would be approximately 120,000,000 bushels of Canadian wheat shipped into the United States.

Canada this year produced a crop of approximately 289,000,000 bushels. That leaves 200,000,000 bushels of exportable surplus, and with 61.6 percent of the exportable wheat shipped out of Canada coming into the United States, the continuance of this average would bring, as previously stated, 120,000,000 bushels of Canadian wheat into the American market.

It is against the dumping of Canadian wheat into the American market that the farmers and business men of the northwest are protesting. They are demanding of the administration in Washington that the anti-dumping clause of the tariff law be brought into action.

The Canadian grain seller can undersell the American farmer 20 cents a bushel and still get a return for his wheat equal to that obtained by the American farmer, because of the difference in exchange. For instance, if the Canadian grain seller gets $2 a bushel for the wheat on the American market, it is equal to $2.20 in Canadian money on the basis of the existing exchange rate.

The statistics covering the movement of Canadian wheat into the United States as announced by W Sanford Evans & Co. of Winnipeg, follow:

	Bushels.
Loaded into cars at country points	36,573,750
Inspected at Winnipeg	28,656,250
Atually unloaded into elevators at Fort Williams and Port Arthur	20,091,250
Shipped out from Fort William and Port Arthur—	
By rail	88,750
By lake	13,416,000
Destination above shipments—	
Shipped to all Canadian	5,151,000
Shipped into United States	8,265,000
	13,416,000

Percentage of shipments from Port Arthur and Fort William to the United States—61.6 per cent.

Flour Shipments

Canadian reports do not cover the transportation of Canadian flour to the United States. It is known, however, that some Canadian flour has already been shipped into the United States, and that hundreds of thousands of barrels of Canadian wheat are already sold to the United States buyers to come in as fast as transportation is available. This Canadian flour, according to Winnipeg advices, is being offered at such low prices that it has the same depressing effect on the United States price of flour as has the importation of Canadian wheat on the price of that product.

Another factor entering into the sale by Canada of her surplus wheat in the United States is the fact that the cost of production of wheat in Canada is less than in the United States. Two items particularly enter into this situation. They are the lower price of Canadian land and the greater average yield per acre.

FATE OF JAP FARMERS UP NOVEMBER 2

California Will Pass Upon Amendments to Alien Relative to land Titles

San Francisco, Oct. 26.—The fate of Japanese farmers in California will be decided on Tuesday, November 2, when the electorate of this state passes on an initiated measure that would drastically amend the present alien land law by withdrawing entirely the three-year agricultural land leasing privilege from aliens who are ineligible to American citizenship.

The measure aims also to place minor land-owning aliens under the guardianship of a public administrator. The actual ownership of farm lands by aliens ineligible to citizenship already is prohibited by the alien land law enacted by the state legislature in 1913.

The initiative measure, its proponents assert, will conform strictly to the letter of the treaty between Japan and the United States, in which Japanese residents were granted certain privileges. The opponents of the proposed new law declare that the issue raises the question of an interpretation of phraseology in the treaty, wherein it is provided that the Japanese resident in the United States "may own or hire and occupy houses, manufactories, warehouses, shops and premises and lease lands for residential and commercial purposes."

It is pointed out by persons opposed to amending the present law that the leasing of land for "commercial purposes" contemplated the privilege of leasing agricultural lands. The voters of the state have had the legal verbiage of the measure clarified by arguments for and against it respectively by V. S. McClatchy, publisher of the Sacramento, Cal., Bee, and by John P. Irish, an extensive land owner of Stockton, Cal.

POLAND BATTLES AGAINST TYPHUS

Warsaw, Oct. 26.—Major Charles E. S. Webster, of Bethlehem, Pa., has arrived in Warsaw from Armenia to direct the attack of the American Red Cross on Poland's 250,000 known cases of typhus. Dr. Webster made a special study of sanitation and diseases for the American government mission in Armenia.

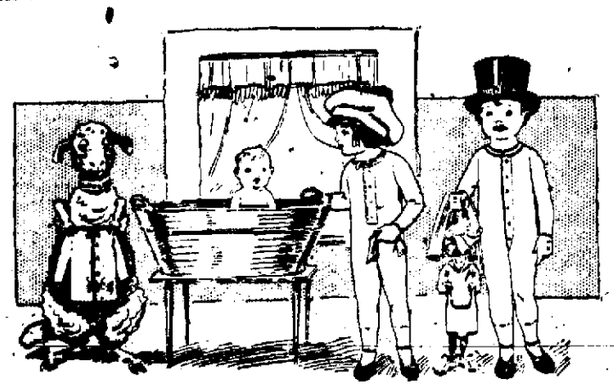

"It will take 10 years at the present rate of progress," Dr. Webster said, "to wipe out typhus in Poland. The fever has become epidemic through six years of almost continuous fighting. We must have disinfectants, soap, clean linen and clothing in great quantities if we are to make any impression against the scourge."

STATE'S MONEY USED TO HELP LEAGUE'S BOSS

Lemke Tells Business Man House May Cost Him $14,000; Legal Limit is $5,000

Bill Lemke boss of the Nonpartisan league is building a mansion in Fargo—that is, the state homebuilders association charged with the duty of aiding the poor man to own his own home is building it

The house well toward completion will cost $14 000 Lemke told a Fargo business man

The law says this

Chapter 150 (Laws of 1919) Section 6 No home shall be built or purchased and sold at a price to exceed five thousand dollars, except in case of a farm home in which case the selling price shall not exceed ten thousand dollars The word home as herein used shall mean a dwelling house within or adjacent to a town village or city together with such equipments as are customarily in use in connection with a dwelling house The words farm home as herein used shall mean a tract of agricultural land together with a dwelling house barn and such other farm buildings and equipments as are customarily used in connection with a farm home

Section The association shall make a specialty of building standardized modern barns and other buildings and equipments provided for herein

One for Totten

Not only is the state putting up this mansion in Fargo for the league boss but is purchased a residence costing $10 000 for George A Totten son of the ex Rev George Totten head of the board of administration who is employed in the publicity department of the Nonpartisan league for $10 000 and alterations remodeling the home into a double place are to be made costing from $2 000 to $4 000 To enhance half of the house

Other "Poor Men's" Houses

Other expensive houses built in Fargo include a house for J W Boeing wealthy retired farmer formerly director in Security National bank The permit calls for a $7 000 house The building inspector of Fargo said it would cost $10 000

A house is being built for Mr Johnson, wealthy retired Nonpartisan farmer The building inspector says this will cost $8,000 to $9 000

The affidavits of Fred W Thomas and L L Twichell, regarding a conversation with Robert Blakemore manager of the home building association, follows

STATE OF NORTH DAKOTA,
COUNTY OF CASS ss

The undersigned being first duly sworn deposes and says that he, with others, engaged in conversation with Robert B Blakemore, manager of the Home Building association of North Dakota, in the City of Fargo, on or about Oct 12 1920, such conversation having to do with certain acts of the leaders of the Nonpartisan league, that while such conversation was being carried on L L Twichell of Fargo entered the business place were the conversation was taking place and this affiant asked him as to the correctness of certain statements which Mr Blakemore had made to them that after replying to such questions Mr Twichell interrogated Mr Blakemore with respect to the manner in which he claimed the provisions of the Home Builders law were being ignored and evaded by Mr Blakemore's department Mr Twichell contended that the association had no right to build a house to cost $10,000 for anyone, not even for William Lemke, he called Mr Blakemore's attention to the fact that the law definitely and specifically provided that the Home Builders association could neither buy, sell nor build a city home at a cost in excess of $5 000, stating that the whole argument made for the Home Builders law at the time it passed the legislature was that its purpose was to help laboring people and others unable to own their own homes to acquire such homes with the aid of the state Mr Twichell asked Mr Blakemore if the Home Building association was not building a house for William Lemke to cost at least $10,000 Mr Blakemore stated that such was a fact, he asked him (Mr Blakemore) if the association was not building a house for one J W Boeing to cost about $10 000 and Mr Blakemore admitted it was He asked Mr Blakemore if it had not purchased a part of two lots with a house thereon for Mr Totten for $10 000 and if it had not since remodeled the same into a double house at considerable expense and Mr Blakemore admitted such to be the fact, he asked Mr Blakemore if they had purchased dimension lumber for building purposes at a figure stated in the Courier-News and Mr Blakemore admitted that they had not he asked if Mr Blakemore had not admitted to a certain architect in Fargo that they had not bought their lumber any cheaper than he the architect could and Mr Blakemore admitted that such architect could buy as cheap as the association had, excepting that the association had purchased high grade maple flooring for $187 50 per thousand which he claimed was a great saving over the list price of such grade flooring, he however stated to Mr Twichell that the flooring purchased was of a higher grade than is usually used in houses and of a grade that the Fargo yards ordinarily do not carry, and they consequently could not give a close price on it

STATE BUILDS LEMKE THIS MANSION

In one of the choice residential districts of Fargo the above beautiful residence is being built for Bill Lemke by the state home builders' association. The cost of this residence is about $12,000. Some have estimated it as low as $10,000 and as high as $14,000. The law provides that the association may finance city homes costing not more than $5,000. R. B. Blakemore, manager of the association, has admitted that the law is being violated or is stretched to permit this mansion to be built for the league boss in North Dakota.

How to Make Pine Cough Syrup at Home

Has no equal for prompt results. Takes but a moment to prepare, and saves you about $2.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose.

Pine cough syrups are combinations of pine and syrup The "syrup" part is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex in a pint bottle, and fill up with home made sugar syrup Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready made for three times the money It is pure, good and very pleasant—children take it eagerly.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

Ten Years Younger Than His Years

Doesn't it make you feel good—cause you to straighten up and feel "chesty"—when someone guesses your age at ten years or so younger than you really are? You look into your mirror, smile with satisfaction and say to yourself: "Well, he didn't make such a bad guess, at that."

The point is: You're no older than your vitality.

If a man is strong, vigorous, mentally alert, fine and fit at 50 he has a better chance of living up to 80 than a man of 30 who is weak and run-down has of living up to 60. While none of us can stay the years nor stop time, we should all make an heroic effort to successfully resist the effects of time by ever keeping our vitality at par.

When you sense a feeling of slowing down of your physical forces—when your stomach, liver, kidneys and other organs show signs of weakness—when you notice a lack of your old time "pep" and "punch"—in other words, when you feel your vitality is on the wane, you should commence at once to restore your energy, strength and endurance by taking

DISABLED VETERANS ARE MAKING GRAND 'COMEBACK' IN COLLEGE

(N. E. A. Staff Special.)

NEW YORK, Oct 26 —The first REAL step in the rehabilitation of disabled soldiers has just been taken The statement must not be taken to discredit the efforts that have been made by hundreds of agencies and individuals looking toward that end but the fact is that this is the first real step because it has been taken by the soldiers themselves

The step is the formation in Columbia University of a "Come Back" Club, the purpose of which is to combat two things that have almost spoiled ruin for thousands of disabled soldiers.

The first of these things has been the inconsiderate way they have been treated by the federal board and employers in many cases, the second has been a very opposite thing—the "you have suffered for us, your life should be made a bed of roses attitude."

Both have wreaked havoc among the ranks of disabled soldiers, the one creating resentment and discouragement and the other a stealing of ambition and creating of false perspective

The slogan of the Come-Back Club at Columbia bespeaks its aims It is "the Spirit's the Thing" and is based on the belief that with spirit a man can overcome almost any handicap This spirit, organizers of the club feel, can be built upon three points of pride—pride in his ability to come back as an individual, pride in the standing of his club as a whole at the school he attends, and pride in public acknowledgement of the fact that the disabled soldier has a real place in the community

The result, so far, at Columbia has been that more than 300 disabled soldiers have joined the club and it is now their aim to establish a similar club in every school in the country that has disabled soldiers in attendance

Escaped an Operation

There is nothing in the world women so much fears as a surgical operation. Often they are necessary but often not; and many have been avoided by the timely use of that good old-fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound. If you are suffering from some dread ailment peculiar to your sex, why not profit by the experience of these two women whose letters follow?

These Two Women Saved from Operations.

Cedar Rapids, Ia.—"After the birth of my last child I had such painful spells they would unfit me entirely for my housework. I suffered for months and the doctor said that my trouble was organic ulcers and I would have to have an operation That was an awful thing to me, with a young baby and four other children. One day I thought of Lydia E. Pinkham's Vegetable Compound and how it had helped me years before and I decided to try it again. I took five bottles of Vegetable Compound and used Lydia E Pinkham's Sanative Wash and since then I have been a well woman, able to take care of my house and family without any trouble or a day's pain. I am so glad and thankful to say by your medicine alone. I am forty four years old and have not had a day's illness of any kind for three years."—Mrs H Koesig, 617 Ellis Blvd, Cedar Rapids, Iowa

Sandusky, Ohio.—"After the birth of my baby I had organic trouble. My doctor said it was caused by too heavy lifting and I would have to have an operation. I would not consent to an operation and let it go for over a year, having my sister do my work for me as I was not able to walk One day my aunt came to see me and told me about your medicine—said it cured her of the same thing I took Lydia E Pinkham's Vegetable Compound and used Lydia E Pinkham's Sanative Wash and they have cured me Now I do my own housework, washing and ironing and sewing for my family and also do sewing for other people I still take a bottle of Vegetable Compound every spring for a tonic. I recommend your medicine to others who have troubles similar to mine and you can use my letter if you wish."—Mrs Pauline Papenfuse, 1325 Scribner St, Sandusky, Ohio.

MISS CONNOR BRIDE IN PRETTY HOME WEDDING

The home of Mr. and Mrs. William A. Hughes, 616 Seventh street was the scene of an unusually pretty wedding at 6:30 Monday evening, when Mrs. Hughes' sister, Miss Faye Conner became the bride of Mr Floyd W. Kent, of Macon, Georgia.

The bridal couple spoke their vows under a bower of ferns and American beauty roses, arranged in the parlor of the home. Rev. Edward F. Jordan of the First Baptist church performed the ceremony, the ring service being read.

The bride's gown of irridescent rose taffeta shading to blue and she wore American beauty roses. The bridesmaid, Miss Isabelle Cochrane wore pink taffeta and carried pink rosebuds. The groom selected as his groomsman Mr. Paul Cashman.

Immediately following the ceremony the wedding party, composed of members of the family drove to a local hotel, where the wedding dinner was served, in a private dining room. The table was beautifully arranged and each guest found a boutonaire of rose buds marking the place at table. Covers were laid for seven

The bride, who was born in Bismarck and attended school here, has many friends who wish the young couple every success in life.

A motor trip was arranged for the honey moon and the young couple left immediately for a place selected by them and only to themselves. Upon their return to Bismarck after their trip Mr. and Mrs. Kent will remain in town a short time before making their home in the South.

AUDITORIUM IS OBTAINED FOR KIDDIES PARTY

Concert Will Be Held in Church and Children Will Be Given Free Entertainment

The boys and girls of Bismarck are to have a big Hallowe'en party on Saturday night, concluding with a big show in the Auditorium.

The Auditorium had been engaged by the committee which is bringing the Welsh singers to the city Saturday night for the benefit of the public library, but the committee generously offered to hold the concert in the Presbyterian church so that the boys and girls movie party could be held at the Auditorium. Parents may attend the concert and rest assured their children are in safe hands at the Auditorium.

The Town Criers' program for the Hallowe'en festival are practically complete. A big street parade is planned, followed by the party at the Auditorium.

The Town Criers do not believe the Hallowe'en parade, which will be held early will detract from the appearance of the Welsh singers and assured the committee of hearty support. The Welsh singers are being brought here to aid the fund of the library, particularly the fund for purchasing works of fiction.

OLD RESIDENT OF BISMARCK IS DEAD IN CALIF.

Judge Newton, today received word from J. J. Jackson that Nathan Dunkleburg, died this month at the soldiers home at Sawtell, Cal. Mr. Jackson and Geo. Gibson were the only Bismarck men attending the funeral. The deceased was buried beside Dr. Bentley another former Bismarck resident who died recently in California.

Mr. Dunkleburg is well known to the older residents in the Capital City. For many years he conducted a lumber yard in this city. He retired a number of years ago and entered the soldiers home in California.

Judge Newton also received word that Dr. Frazier another former Bismarck resident is making his home with a son at Berkeley, Cal.

Skin Blemishes

How to get rid of them

Skin specialists are tracing fewer and fewer troubles to the blood. They say more often, skin blemishes can be traced to the bacteria and parasites that are carried into the pores of the skin with dust, soot and grime. To clear your skin of blemishes caused by this insidious and persistent enemy, use regularly the following special treatment.

Just before retiring, wash in your usual way with warm water and Woodbury's Facial Soap; then dry your face. Now dip the tips of your fingers in warm water and rub them on the cake of Woodbury's until they are covered with a heavy cream-like lather. Cover each blemish with a thick coat of this soap cream and leave it on for ten minutes. Rinse very carefully with clear, hot water; then with cold.

In addition to this special treatment, use Woodbury's regularly in your daily toilet. This will make your skin firm and active. It will help the new skin to resist the frequent cause of blemishes. Before long your complexion will take on a new clearness and freshness.

Get a cake of Woodbury's Facial Soap and begin tonight the treatment your skin needs. You will find Woodbury's on sale at any drug store or toilet goods counter in the United States or Canada. A 25 cent cake will last a month or six weeks.

STILL A BABY

When man grows cocky and boasts of his conquest of Nature, he fogets that he doesn't know what matter, time, life, electricity, gravity; light and heat are. He is at a loss when it comes to defining any of the forces or other properties of the universe.

He may observe, he may learn the laws governing the manifestations of Nature, he may formulate theories, but seemingly a more intimate acquaintance with his environment has been denied him.

The race has been placed in a nursery, the confines of which it can never see; it has been given toys which it cannot play skillfully, far less does it understand them.

There is the playroom to explore, there are new toys awaiting discovery, there are old ones to be known—

Man still is lying on his back before the fire, sucking his thumb and kicking up his heels; he hasn't learned to walk.

But at that, he is a promising child!

Well, the candidate's wife doesn't have to vote for him and that's liberty for you.

GRANDMA'S BEAU

"When I was a girl," says Grandmother, "the men folk used to call on me right after the supper hour—and when the hall clock struck nine-thirty it was a gentleman's time to depart.

"I seldom had a caller who didn't also welcome the presence of the rest of my family. And my old sweethearts never smoked in my home."

And granddaughter replied:

"The callers don't come until nine-thirty, these days, Grandmother. And when the kitchen alarm clock rings for the housemaid to get up, they leave.

"My parents, too, always stay in the front room on the evening when a gentleman calls on me—but I'm never home. We spend the evening at a dance or the movie.

"And smoke—the men folk of today not only smoke their own cigarets, in the house, but they also smoke dad's cigars."

And grandmother still sighed for the return of the old days.

Burning cotton and corn to keep the price up is criminal; it is worse than that, it's foolish.

RESPONSIBILITY

The successful executive divides responsibility. His work is to oversee, not to take care of every little detail.

Give a person responsibility and that person will gain confidence in his own ability and find greater pleasure in his work.

If Mr. Blank passes letters to his secretary with the words, "Miss Brown, I wish you would handle these," Miss Brown is going to work twice as hard and hold her head just a little higher. She is a responsible cog in that business machine; and not a mere human automaton turning out just so many letters a day.

However, it often happens that a woman, who has newly entered the business world, is timid and afraid of shouldering responsibility. "What if I make a mistake?" she asks. What of that? The error of the past is the success of the future. The wise executive knows this, and judges, not by mistakes, but by successes.

He who goes steadily ahead and later advances to the "boss'" desk, does not shirk responsibility. He seeks it. He shows that he is willing and eager to shoulder it for he knows that responsibility walks hand in hand with capacity and power. What wins for "him" wins for "her"!

"I told you so" chorus greeted the news that Emma Goldman is eager to return to this country.

"HOW DO YOU DO?"

By their handshakes ye shall know them, is the gist of pointers given to salesmen of a large concern by Dr. Charles F. Boger, director of its personnel. That seems to be something new under the sun. Character, and trust-worthiness as well as other characteristics telegraphed to the mind by way of the grip.

Boger classifies his ideal into five ways of shaking hands, each of which conveys to his mind something different. The first he characterizes as the friendly handshake and he says that the man who gives a full hand and presses his thumb against the back of your hand is social, liberal and a congenial companion. He describes "the economical handshake" as one in which the thumb is not pressed down on the back of your hand, and designates that fellow as thrifty, economical to a fault, niggardly, almost merely, and a poor associate in revelry or amusement. And, dear me, the doctor says that the higher one holds his thumb from the back of the other shaker's hand, the stingier he is.

"The secretive handshake" is contributed by the man who offers the tips of the fingers—'sly, secretive, cunning." Then he says the "indifferent handshake" is that of the party "who gives you his hand as though he was laying a piece of wood or brick in it." He characterizes such a man as lacking refinement, easily led and imposed upon. And the fellow with a closed fist, sometimes observed on the platform, is insincere and given to exaggeration.

By the way, what has become of all the yellowback bills?

PRIZE SUCKER BAIT

Ever since the Ponzi episode there has been a flood of advertising by various firms dealing in foreign exchange, most of them picturing the prospect of fabulous profits for those purchasing options on European monies. German marks are apparently the favorite—probably because they are about the furthest from par, and, therefore, would make the highest percentage of gain if they reached par.

A typical example is the advertisement of a Detroit firm, seeking investors in six-months' options on marks. Like all such ads it first tries to impress the prospective investor with the idea that Germany is fast recovering her former economic and industrial position, and that a large appreciation in the value of her money is, therefore, probable.

This idea presented, the advertisement then relates the enormous profits to be made by holders of options should marks go to par or close to par.

The big "catch" in the game is the fact that only six-months' options are sold. Foreign exchange will advance in value, certainly, but very slowly through the operation of numerous economic, social, industrial and commercial agencies. Any rapid appreciation in six months is admitted by good bankers to be out of the question. And, if it wasn't out of the question, you couldn't buy such an option for love or money.

Get-rich-quick swindlers would catch few suckers if the latter would only stop to think that no one ever has to go out and beg for and solicit investors in any scheme that offers even a reasonable fair chance for abnormal profits.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

SHOE ON OTHER FOOT NOW

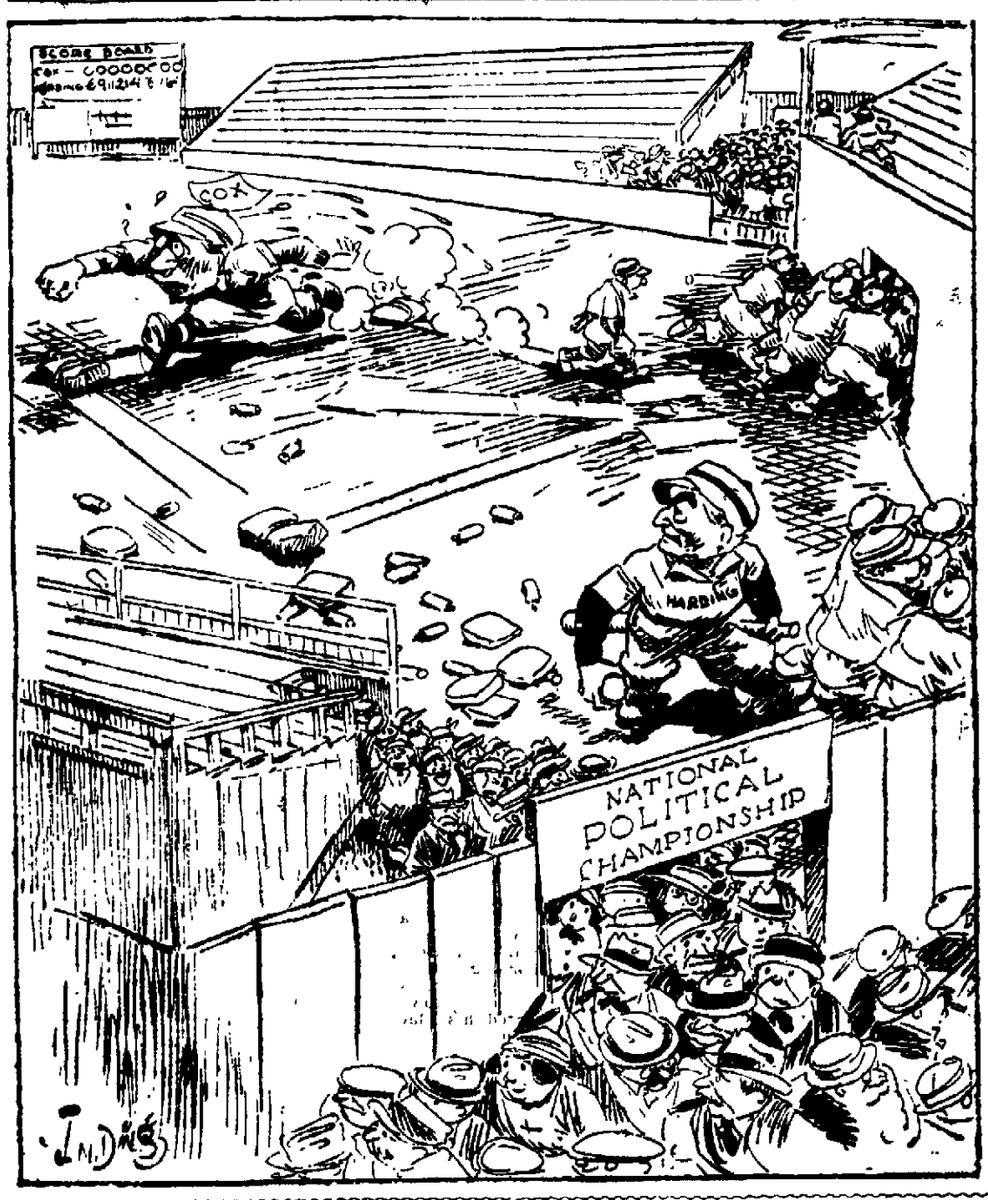

The mendacity of J. W. Brinton is almost past belief.

After putting it all over the people that the newspaper graft bill was passed as a matter of economy to the people and for the purpose of batting "Big Biz" and its friends by taking away from them the power to "subsidize" newspapers through legal notices, and denying all thot of graft or personal interest on the part of the League leaders, he now comes to the front saying the law was concocted, not as a matter of economy or better government, but for the purpose of corraling all the legal printing of the state for the sole benefit of the little bunch at the head of the League, who had already induced the farmers to buy them a paper in each of the counties.

We cannot recall any state in which such an admission or damnable graft has been made, and it is a sad parody on lawmaking by a legislature that was so beautiful and benecial to the dear people, as Governor Frazier put it last Monday night.

Now that the real people have a chance to even up the score, it is altogether likely they will not be in line with their votes for the Brinton-Townley newspapers that are in the field for a continuance of their unholy graft.—Beach Advance.

The Experiences Of Hiram Wise

INTRODUCTION

"Hiram Wise" is a farmer of the old school who believes in the "emancypashun o' humanity." Being a forward looking man, he is one of the first to join the Nonpartisan league when its organizers visited his community. While his varied experiences are told in story form, practically every one of them has been duplicated in real life.

"Bobs'" speech has been written in dialect in order to carry out the general idea. It is "Hiram" who is doing the talking, telling the reader of his experiences with the Nonpartisan league in emancipating North Dakota.

—The Author.

XV.—FACTS LAID BARE.

Promptly at eight o'clock on the night menshuned everybody wuz at the Henroost Center hall. As I looked aroun' I wuz surprized The seats wuz all taken an' a lot o' men wuz standin' up. As Bob stepped up on the platform an' stood before us tall an' straight one o' the noblest types o' manhood, I believe everybody there felt that they had done him an unforgivable wrong, an' wanted to make it up to him, somehow I know I felt that way myself.

"Friends," said Bob, lookin' over the sea o' faces before him, "as I stand here before you tonight, I feel that at last I am being repaid fer the wrongs I have suffered durin' the yast two years.

"It would o' been so easy for me to continue in deceiving you, an' receive the flatterin' praise o' your press

"But I held honor an' integrity found that I could above everything else, an' when I found that I could no longer conscientiously uphold your organization I withdraw from it. Because I refused to be a tool fer Townley and his coherts I have been branded as with the brand o' Cain I have been held up to you as a traitor an' crook.

"Many of you have refused to speak to me when we met on the streets. Many of you have looked on me as a man lost to all sense o' decency. But, my friends, let me tell you right here an' now that I have been faithful to the trust you placed in me. I have held your interests, an' the interests o' the people o' the state as higher than those of the men who are at present the leaders o' your organizashun. Had I meekly worn the Townley collar, had I obeyed those higher up there is no position within the gift o' the people I might not have had with the full consent o' your leaders But because I held out against their flattery, exposing their schemes an' personal ambishuns, I have been hounded, branded, and condemned. But at last I feel that I am bein' vindicated Your presence here tonight assures me that you are anxious to learn the truth, I see in your faces a glimpse o' returning faith in me an' I feel like rejoicing.

"Your good friend, Mr Wise has told me something of the experiences you have had in your struggle for better living condishuns You have a store that is no store, a paper that is not in the hands o' yourselves, an' you have almost lost faith in humankind

"But let me tell you, my friends, that all is not lost. The experiences you have had were but the natural outcome o' a system o' pillage such as our state has never seen before—a system that if it continued would mean the utter ruin o' all that has been accomplished since statehood Mr. Wise has told me how you have had sent to your school, from the state library, books which were written by some o' the world's most notorious persons, that when you took this matter up with the persons responsible, they declared a mistake had been made.

"Let me tell you my dear brothers an' sisters, no mistake had been made. Those books were intended to circulate in your school an' homes That you found out the vicious nature of them in time was an accident, pure an' simple.

"Had they remained there is no telling what their deadly work would have accomplished.

"You may ask why I know these things are true. It is because this is only one o' many cases I have heard of, all of which were silenced. But when the legislature set, one o' our legislators found out what wuz goin on an' put a stop to it.

"Otherwise your schools would have continued to have been contaminated by this vicious propaganda" I heard a gasp go all aroun' the hall. Could his words indeed be true? Wuz it possible no mistake had been made? If this wuz true what deadly thing had the farmers turned loose by electin' their men to office—an' where would it all end if a stop wuzn't put to it? I saw incredulity, fear, an' finall intense, consumin' wrath on each farmer's face.

CUTICURA HEALS SCALP TROUBLE

In Blisters, Hair Very Thin, Itched and Disfigured Head, Lost Rest.

"My scalp started itching and little red blisters broke out. They would itch and get very sore and after a time they dried up into scales and disfigured my head. Sleep and rest were almost out of the question, and my hair got very thin on top.

"I was advised to use Cuticura Soap and Ointment so I wrote for a free sample and afterwards bought more. Now I am completely healed." (Signed) Wm. Emmis, 1514 N. Jefferson Ave., Peoria, Ill., May 20, 1919.

POETS' CORNER

You'll Get All That's Coming to You.
(Contributed).

When Townley first came 'round in North Dakota,
The farmers thought that he would help them out;
So they joined his organization in a rank and file formation,
And declared they'd put the grafters all to rout,
For Townley'd said to them "my honest brothers
I've a feeling of great sympathy, 'tis true
You've been cheated, skinned and swindled, till my righteous wrath is kindled.
You should get what is coming to you.

The farmers said "we're with you, Mr. Townley,
For you've got the situation sized up right;
We've been toiling for long years, just to feed the profiteers,
And our obligations doubled overnight;"
So the farmers stuck and won out on their ticker,
The League swung in with all its retinue.
While Townley danced and shouted, boys we've surely got them routed
Now you'll get all that's coming to you.

Long years have passed since Townley came among us,
And he is still among us, you can bet;
We've got a mill at Drake, which is nothing but a fake,
And we're waiting for our elevator yet!
We've not a thing to show for all our money,
And as we see the whole scheme in review,
We know we got the truth, when Art said to us forsooth,
You'll get all that's coming to you.

But what we got was not what we expected
We got it, like the turkey, in the neck!
We raised a monstrous fund to keep a plunderbund
For that plunderbund was "After Cash," by heck!
Oh he wasn't satisfied with just a million,
What he wanted was the League's whole revenue.
Then he bought a sical trust, but he couldn't raise the dust—
Did you get what was coming to you?

'Tis election time in good old North Dakota,
And Art Townley and his bunch are turning pale,
For the women folks are ready, and the water's boiling steady,
And they'll can him good and proper, without fail
And when we've got him all done up and labeled
We'll ship him out to Russia p. d. q
Then we'll yell across the ocian "any old boy we've got a notion,
That you'll get all that's coming to you."

ENVOY

You'll get all that's coming, and more,
Sail away to a Bolshevik shore.
Tell Lenine and Trotzky, Dakota got hotsky
And hadn't use for you no more
Hike along with your Socialist crew.
It's the only thing left you to do.
You have played to the house and you've landed a "souse"
So you've got all that's coming to you.

When the Votes Come In
(Contributed.)

Townley's mighty busy telling us what he has done,
Built a bank (to please himself and Bishop Bill, by gum)..
Pays us for our dockage (but I've never got one yet);
Built an elevator (which is visionary yet.
Townley's mighty busy now a working of his chin,
But he'll be disappointed, when the votes come in!

Townley's been a-telling us how Lemke saved the state,
Put the railroad rates way back, that's sure some handsome bait;
And Lemke, so the Courier says us worth his weight in gold,
(Never doubted it a bit—we're left out in the cold)
Lemke says, and Townley says the League will surely win,
But they'll be disappointed, when the votes come in!

Townley says that now for us sweet freedom's bell shall ring,
(He stands behind the curtain tho, a-pulling at the string;
He says that Independence stands a-knocking at our door,
If we don't vote the Townley way she'll never come no more,
Oh Townley hates the business men and all their kith and skin
But he'll be disappointed, when the votes come in!

For farmers know that talk is cheap and gasoline comes high,
They've seen that Socialistic bunch the laws of man defy;
And turn the whole state upside down, and inside out besides
(They've taxed us till we've nothing left except our blooming hides;)
Yes, Townley and his satellites may think that they will win
But they'll be disappointed, when the votes come in!

AROUND THE WORLD

Wilmos, Minn —"A few years ago I had a severe attack of ptomain poisoning which left my blood in very bad condition. I tried a great many so-called 'tonics' but felt no better until a friend suggested my trying a bottle of Dr. Pierce's Golden Medical Discovery, which gave me immediate relief. It is surely an excellent tonic, does not purge, and is not objectionable to the taste. I was living in England when I first took the 'Discovery' and have since been around the world and always carried a bottle of the 'Golden Medical Discovery' right with me. I would not be without it and am only too pleased to be able to recommend it."—WALTER E. DUNSTON, Willow Farm.

PROMINENT WOMEN

Kennebec, S. Dak.:—"A few years ago during expectancy I got all run-down and felt that I needed something to strengthen me. I took Dr. Pierce's Favorite Prescription and it soon had me feeling fine. I did not suffer and my baby was a strong healthy child and always has been the picture of health which I think I owe to this medicine. We also use Dr. Pierce's Pleasant Pellets and they have always given perfect satisfaction. I have Dr. Pierce's Medical book, the Common Sense Medical Adviser, which has been a wonderful help to me and my family. I think there is no better medicine made than Dr. Pierce's Favorite Prescription and can highly recommend it to all."—MRS. G. W. COX.

YOUNG WOMANHOOD

Cedar Rapids, Iowa —"A relative took Dr Pierce's Favorite Prescription when she was a young girl and has taken it several times since with wonderful results I have taken it off and on since I was a young girl, it has helped me every time I have taken it. I consider it a wonderful medicine for young girls just entering womanhood Nothing equals it. It restores one's health quickly and is pleasant to take. I recommend it to everyone needing such medicine."—MRS CLARA JONES 1329 2d Ave. E.

PEOPLE'S FORUM

Editor Tribune:

This is an open letter to our girl voters:

Dear Young Women:

On you we depend for victory at the polls

As our men-folk made such a 'batch' of it the past four years we look to your sound sense to put the schemers out of office Don't be shy on account of your age. Most young men don't want to marry a girl until she is 21 or over, and your vote will satisfy him on that point Uncle Sam says if you are one day over 20 you are 21 Take advantage of that proposition, and come out and vote Every vote counts. Your brother may have a job in the Bank of North Dakota and can't vote his conscience, but you and your mother and married sister can.

After inducing the farmers of our state to make fools of all of us, Townley gave them the laugh, and they had to go to the old banks for money when they wanted it. "A slender purse is a disadvantage" and that's how the taxpayer of our state will be next year if the socialists are re-elected. Vote for a tried and true man like George M. Young, who served the state so long and well Send a man there whose ability is known. He will be on all the responsible committees, where he can be heard from. Out with the Bolsheviki

TERENCE J TULLY.

GRANDSON OF CHIEF ST. CLOUD GETS DIVORCE

Minneapolis, Minn., Oct. 26.—Deserted by his "squaw" less than a year after his marriage, Sam St. Cloud, a grandson of Chief St. Cloud, has obtained a divorce in district court here, the first legal separation of Indians in the county, it is said.

Answering questions when on the witness stand through an interpreter, the "red man" testified that his wife, Julia St. Cloud, "wilfully deserted and abandoned" him on October 21, 1918. Mrs. Jennie St. Cloud, daughter-in-law of Chief St. Cloud and mother of the plaintiff, appeared as a witness in behalf of the deserted Indian.

Sam is 36 years old and his former wife is 40. They were married in Red Wing, Minn., November 3, 1917, and have no children. The town of St. Cloud is named after Chief St. Cloud.

The divorce was granted by default, the wife failing to answer the separation suit.

BANK OF NORTH DAKOTA BACKED "SLUSH FUND" SAYS EDITOR

(Continued from Page One)

to go outside of Barnes county for money on their notes if it was not for political purposes? Tell the people these things and if we are the liar you say we are, we want to be one of the first newspapers in the state to brand the editor as such. You know we are telling the truth and you also know that the state bank is nothing more or less than a political clearing house for the Nonpartisan league. You cannot deny this and be honest, can you? Anybody but a real honest to God farmer can get a loan at the Bank of North Dakota if he wants to boost Boycott Townley, Boycott Frazier and his bunch of political pirates, including yourself, into office. When you undertake to call the editor of this paper a liar you bit off more than you could chew, didn't you? Did you think that your little type written letter was going to throw a cold chill up and down the spine of the editor of the Times-Record? you are sadly mistaken if that is what you think. We have the goods on you and your old politically run Bank of North Dakota and you can "shoot it to the other banks and to the league kept press" but the hand writing of Belshazzar on the wall is staring you and your crew of state wreckers in the face and on November 2 the people are going to say by their vote "you have been weighed in the balance and found wanting." If you want any more of this let me hear from you and if you have forgotten about those five notes call up the Security National bank of this city and they will give you the truth and nothing but the truth.

ATTENDING TO CHICKENS AND GARDEN

"My neighbors are surprised to see me looking so well, for they thought I would not live to see summer. I had such pain around my heart as to cause me to faint. I knew it came from bloating and pressure of gas in my stomach. A friend in St. Louis told me to use Mayr's Wonderful Remedy and I now feel better than in all my life. I am doing my own work, attending to my chickens and my garden and have cleaned house." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. All druggists.

EASES A COLD WITH ONE DOSE

"Pape's Cold Compound" Then breaks up a cold in a few hours

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the grippe misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!

BURNQUIST PROCLAIMS ARMISTICE DAY NOV. 11

St. Paul, Minn., Oct. 26.—Thursday, November 11, was proclaimed today as armistice day in Minnesota by Governor J. A. A. Burnquist, who urged all citizens to properly observe the day.

The governor's proclamation in part follows:

"On November 11, 1920, two years will have expired since the signing of the armistice, which meant the end of the World War.

"The event of which the eleventh day of November of each year will forever hereafter be remembered as the anniversary is one of the most important in the history of America and of the world. 'The armistice,' says Foch, 'was tantamount to capitulation and absolute capitulation.' After years of struggle, agony and sacrifice it ended the saddest of all human experience in the greatest victory of all time."

SLOAN'S GOES RIGHT TO THE ACHING SPOT

You can just tell by its healthy, stimulating odor, that it is going to do you good

THOUSANDS of men and women, when the least little rheumatic "crick" assails them, have Sloan's Liniment *handy* to knock it out. Popular over a third of a century ago—far more popular today.

That's because it *is* so wonderfully helpful in relieving external aches and pains—sciatica, lumbago, backache, neuralgia, overstrained muscles, stiff joints, weather exposure results. A little is all that is necessary, for *it soon penetrates without rubbing*, to the sore spot. No muss, no stained skin.

All druggists—35c, 70c, $1.40.

THREE TIED IN FOOTBALL RACE IN CONFERENCE

Ohio State, Illinois and Chicago Are the Leading Teams—Standing Given

Chicago, Oct. 26.—The fight for the football championship of the Western Conference apparently is developing into another of the bitterly fought races frequently decided by the last games of the season, which always have characterized the contest for titular honors among the big Ten teams.

With the season well under way, three undefeated teams now are tied for the lead, but so many contests have been decided by small margins and lucky breaks that football followers have found it impossible to pick less than three elevens as championship favorites, while in many cases four or more are given a chance for the title.

Saturday's contests left Illinois, Ohio State and Chicago undefeated, with two victories each. Their lead, however, was not considered secure, for the first two won by narrow margins and by favorable breaks in the luck of the game against teams showing undenied strength, which may result in upsets later, while Chicago has yet to face the stronger elevens of the conference.

The standings follow:

	Won	Lost
Illinois	2	0
Ohio State	2	0
Chicago	2	0
Wisconsin	1	1
Northwestern	1	1
Indiana	1	1
Iowa	1	2
Michigan	0	1
Minnesota	0	2
Purdue	0	2

The outstanding game of the day was the clash between Michigan and Illinois, which the Illinois won by a goal after touchdown—7 to 6. Illinois, last years' champion and fresh from a victory over Iowa, which previously had defeated Indiana, was a strong favorite over Michigan, playing its first conference game of the season.

The victory, although ample for statistical purposes, did not bring the cheer to the followers of Coach Zuppke's eleven which they had hoped for. Michigan led 6 to 0 for most of the game, and lost only when forward passes gave the Illinois a touchdown. Then Perrin, Michigan back, got away for an end run on the next to last play of the game, which might have resulted in a touchdown and victory had he not stumbled over the referee.

Michigan played a dangerous eleven and indicated that it may complicate the race by winning important games later when the team has been more fully developed.

World Champions to Buy Some Material From Minor League

Cleveland, O., Oct. 26.—President James C. Dunn and Manager Tris Speaker of the World's champion Cleveland club will meet here October 26 to confer in regard to the selection of a training camp for next spring and to decide upon what new material may be needed.

Dunn may buy one or two of a score of minor league stars who have been offered for sale to the local club. Is is believed some other city than New Orleans, where the Indians have trained for five years, will be selected for the 1921 camp.

JOHNSON SEES NO MAJOR UPSET

Chicago, Oct. 26.—President Ban Johnson of the American league, yesterday told reporters as he was leaving the grand jury chambers that "there would be no 12-club league." He refused to amplify his remarks, reiterating previous promises that in a few days he would issue a formal statement concerning the action of the National league club owners and three American league clubs in going on record in favor of abrogation of the national agreement and reorganization of baseball under a "civic tribunal."

WARNS AGAINST SECOND RACE

Newark, N. J., Oct. 26.—A warning to bicycle riders not to compete in any six day race in New York or other than the Madison Square Garden event, which will receive official sanction for the week of December 5 to 11, was issued here today by Richard E. Kelsey, chairman of the Board of Control of the National Cycling association, which governs amateur and professional cycling in this country. A similar event has been scheduled for the week of November 21-27 at the Twenty Second regiment armory. Chairman Kelsey declared that any race other than the Madison Square Garden race would be an "outlaw affair."

Steve O'Neil Holds Record for Catchers

Cleveland, O., Oct. 26.—Steve O'Neil, star catcher with the championship Cleveland baseball team, established a new American League record this season by participating in 149 games, and came within one game of the major league record—150 games set by George Gibson of the Pittsburgh Pirates in 1909.

The previous catchers' record for the American League was 141 games, established in 1911 by Oscar Stanage of Detroit. Stanage's runners up were Ray Schalk of Chicago, and "Hank" Severeid of St. Louis, each of whom caught 139 games in 1917.

O'Neill has caught in 982 games since joining the Indians in 1912. He had 4,251 putouts, 1,214 assists and 153 errors.

The following case is but one of many occurring daily in Bismarck. It is an easy matter to verify it. You cannot ask for better proof.

John Wray, 1011 9th St., N. Bismarck, says: "Doan's Kidney Pills have been an old standby in our home for several years. When I first used Doan's my kidneys were sluggish in action and I had a dull, steady pain in my back. I often had to get up several times during the night to pass the kidney secretions. Doan's Kidney Pills were recommended to me and I got three boxes at Breslow's Drug Store and after using them my trouble disappeared. I recommend Doan's Kidney Pills for such trouble knowing them to be a remedy of merit."

TIED IN CUE PLAY

Chicago, Oct. 26.—The first week play in the National pocket billiard tournament left Arthur Woods of Minneapolis, W. D. Ricketts of Flint, Mich., B. F. Rhines of Akron, Ohio, and Walter Franklin of Kansas City, tied for the lead, each being defeated.

LIQUOR RAIDS HALT TRAFFIC, SAYS OFFICER

Sees Men Higher Up in Whiskey Running Business Being Reached

Minot, N. D., Oct. 26.—Men higher up in the whiskey running business are being reached and whiskey rings broken up, according to Perry C. Darby, prohibition group chief of the Fargo office, who is here in connection with the term of United States court.

"Those who are interested in the transportation of liquor might as well realize now that the Volstead act is going to be enforced," said Group Chief Darby. "Checking whiskey running along the international line has been a big task, but the authorities are now properly organized and are steadily getting the situation in hand.

Traffic Decreasing.

"We are trying to perfect a closer co-operation between local officials and federal agents, and a net is being laid that law violators will do well to avoid. It takes a little time, of course, but there is less traffic in whiskey now than a few months ago, and although we realize that some is getting by us, the volume of liquor illegally imported is decreasing."

F. L. Watkins, superintendent of the state enforcement league, said the financial returns from the whiskey running business are sufficient to attract men of shrewdness, but that these men are the first to quit when they are in danger. He said that the work of his department has not been any child's play. He intimated that some county officials are not inclined to lend as much assistance as they should in checking the transportation of liquor.

Roads Bother Officials.

It is learned that checking whiskey runners along the Canadian line north of Minot is made more difficult because every section line is a road and it is hard to judge just which road the runners will take on the return trip. Very few whiskey runners from Minnesota, Iowa and South Dakota use the same road twice.

Officials realize that men identified with the illicit business have been working together as one organization and a quantity of officers permitted this organization to enter the business on a large scale.

NEWSPAPER ACT BEFORE VOTERS ON NOVEMBER 2

Would Amend Present Law Over Which There Has Been Much Discussion

OBJECT OF THE MEASURE

In a series of articles The Tribune has discussed the initiated measures to be voted upon at the general election next Tuesday, advising its readers to vote "yes" on everyone of them. The final article is devoted to a brief explanation of the initiated measure affecting the publication of legal notices.

This measure if passed by the voters will amend the present newspaper bill over which there has been so much discussion the last two years.

Under the so called Brinton grab act all legal notices were provided by law to be published in one official paper of the county. To make the monopoly complete, the act further provided that until the next general election, the state printing commission should designate one paper in each county for this patronage.

In order to break this monopoly of legal notices, the voters are asked in addition to selecting an official paper to publish county commissioner proceedings and other official notices incident to governmental activity, to endorse a law that will permit private litigants to select any paper they desire for their own personal legal notices paid for out of their own private purse.

Tie Up Business

Brinton and his allies in their cupidity to sew up every bit of legal business for the 53 legal newspapers in which chain he is still a link, compelled individuals to spend their money with league papers whether they desired to or not.

This law for instance will permit John Jones or Bill Smith to take their chattle mortgage notices, their notices to creditors or any notice they may have to publish in connection with litigation to the paper of their choice.

On Special Ballot

Voters will find this measure together with the other four initiated bills on a special ballot. The language of the act is plain and is reprinted here for the benefit of Tribune readers.

Section 5 (DEFINING DUTIES OF SUCH OFFICIAL NEWSPAPER.) Such official newspaper as shall be chosen by the voters in said county as the state, county and municipal official newspaper therein shall publish all proceedings of the board of county commissioners in said county and all other notices and publications that are now required by law to be published by county officers. All publications of every nature that now are or may hereafter be, required to be published by state officers, elective or appointive: Provided, however, that in organized cities, towns and villages where no official newspaper is published, said city, town or village, board, council or commission may designate an official newspaper for the publication of such notices and legal publications as are now or hereafter may be required by law for said cities, towns and villages, including legal notices and official statements of the schools within such cities, towns and villages, but, in cities, towns or villages where the state, county and municipal official newspaper is published such official notices and legal publications as are now or may hereafter be required by law to be published, shall be published in such official newspaper.

Don't confuse this measure with the balloting on the official paper. Name of the papers which are candidates for the official paper of Burleigh county will be found at the foot of the general ballot. You will vote for one official paper and then if you desire vote yes to amend the present law defining the duties of an official paper.

VOTE YES FIVE TIMES on the initiated measures.

MOUNTAIN SCHOOL ELECTS NEW HEAD

Berea, Ky., Oct 26 — Berea college which has enabled thousands of mountaineers of the south to obtain an education, will inaugurate a new president here tomorrow. The successful administration of William Goodell Frost, president of Berea for twenty-eight years, ended last June. His successor, William James Hutchins comes to this position from a distinguished career at Oberlin college. President Frost made Berea famous as the "mountain college of the South" where no one is turned away because of poverty or ignorance. The studies range from A B C's of the "Foundation School" to the A. B. course in college. All expenses can be met for $140 a year and all can earn part of this by labor, the college reports. Students earnings exceed $50,000 a year.

More than 2,100 of the 2,560 students at Berea last year came from the mountains of Kentucky, Tennessee, North Carolina, South Carolina, Virginia, West Virginia, Alabama and Georgia.

The predominance of mountain students is reflected in the inauguration program. Today and tomorrow a "pageant of the mountains" will be staged on the campus picturing the historical significance of "Appalachian America," and on October 23 a conference on mountain problems will be held by experts in rural education and by other educators.

Ever Get Bilious? Try This

Take NR at once. Get digestive and eliminative organs working in harmony and relief is immediate. Never causes griping.

NR Tonight—Tomorrow Feel Right

When your liver goes on strike and you feel a sick headache and bilious spell coming on, instead of prodding your liver with dangerous calomel and inching your bowels with strong, irritating purgatives, get out your box of mild, gentle-acting NR Tablets and take one right off.

Relief will come just as quickly and with it genuine, lasting benefit. There will be no griping, gnawing pains or doubling stomach ache. Nature's Remedy (NR Tablets) works promptly and thoroughly, but the action is gentle, mild and soothing.

Relief comes through the action of Nature's Remedy on not only the liver, but on the whole digestive and eliminative system,—the stomach, the bowels and even on the kidneys. Stored up accumulations of waste and body poisons that have been clogging the system are completely cleared out, the overworked stomach is strengthened and the interrupted work of digestion and assimilation is resumed. The inactive liver goes to work with new vigor, the bowels are unburdened, the headache leaves, that dull "dopey" want-to-sit-down-a-hole feeling disappears, energy, "pep" and appetite return and you find yourself entirely, completely relieved.

There is no better proof of the great value of Nature's Remedy for biliousness and constipation than the fact that more than one million NR Tablets are used every day,—more than five million boxes sold every year.

If you've not already done so, get a 25c box of Nature's Remedy (NR Tablets) and take the first tablet tonight. If your constipation is stubborn or persistant, continue to take one each night for a week or so. Then note how you feel. Your bowels will be as regular as clock work, and you'll find yourself in better shape physically, mentally, every way than you've been in many a day. After that you need not take medicine every day. An occasional NR Tablet to keep your system in good condition will be sufficient, and you can always feel your best. Remember, it is easier and cheaper to keep well than to get well. Just try it.

Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

Pure, Rich Blood Will Keep Your Body Vigorous and Healthy

When impurities creep into your blood the first symptoms are usually a loss of appetite, followed by a gradual lessening of energy, the system becomes weaker day by day, until you feel yourself on the verge of a breakdown.

Nearly everybody needs a few bottles of S. S. S., the great vegetable blood remedy, to cleanse out all impurities about twice a year. It is an excellent idea to take this precaution to keep the system in a vigorous condition, so as to more easily resist disease to which every one is subject. S. S. S. is without an equal as a general tonic and system builder. It improves the appetite and gives new strength and vitality to both old and young.
